Quick Reference Card

Home Screen

- **Open an App:** Simply tap an app icon with your finger to open the app.
- **Navigate Screens:** Each Home Screen is represented as a dot, with the active Home Screen represented as the brightest dot. Tap and drag anywhere on the Home Screen to move left and right between screens.
- **Rearrange the HomeScreen:** Tap and hold your finger on an app icon until the app icons begin to wiggle. Drag the app icon to a new location on the Home Screen (or to the side of the screen to move it to another screen), then release it. Press the **Home button** when you are done moving the icons.
- **Add an App to the App Dock:** App icons and folders in the dock at the bottom of the Home Screen will be available across all of your Home Screens. The Dock can hold up to four apps and/or folders. To add an app or folder to the dock, simply drag it to the dock while rearranging.
- **Delete Apps:** Tap and hold your finger on an app until the icons begin to wiggle. Tap the **Delete button** that appears in the upper-left corner of the icon (you cannot delete apps that came with the iOS).
- **Create an App Folder:** To create a folder, drag one app onto another and hold until a folder is created. Then, drag the app icon into the folder and release. Once a folder has been created you can add more apps to it and rename it.

Keyboard

- **Insert Numbers and Punctuation:** Tap the **Numbers and Punctuation key** to change the on-screen keyboard to the Numbers and Punctuation keyboard, which displays numbers as well as commonly-used punctuation. From the Numbers and Punctuation keyboard, tap the **Symbols key** to change the keyboard to the Symbols keyboard.
- **Insert Accented Characters:** Tap and hold a letter to display a popup of accented or alternate versions of that character, then swipe to the character you would like to add.
- **International Keyboards:** Tap the **International key** to switch between any international keyboards you have set up (**Settings > General > International > Keyboard > Add New Keyboard**). Tap and hold the **International key** to display a popup menu so that you can switch directly to your desired international keyboard.
- **Select Text:** Tap and hold your finger over a word until a magnifier appears, then tap the **Copy** or **Select all button** in the popup that appears. If you want to select multiple words, drag the blue selection dots to the beginning and end of the text you want to select. To paste text, tap and hold where you want to place the text then select **Paste** from the popup menu.
